RE: *Winter Weather Level Alert
Saturday, March 22, 2008
Update #2*

On March 22, 2008, at 10:28 a.m., I reviewed the Level 2 with the Communications Division and personnel from the Ottawa County Engineer's Office. Upon speaking with the supervisor on duty and operating a snowplow for the County, he advised that we are still dealing with ice- and snow-covered roads. They are working on it at this point, and ODOT is experiencing the same problems.

Therefore at this time the Level 2 will remain in effect and will be reevaluated at 1:00 p.m. It is hoped that at that time it can be lifted given the fact that the sun may be out by that time, and some limited travel is taking place.

Further documentation will follow.
